## Work Experience

### AADS

Backend Dev

Remote

November 2023 - Current

- Developed several Microservices for one of the biggest solar Data lake projects in the world...
- Testing several API's and making good use of them to get the production data of the solar plants and inverters and build Microservices around them so they can be used effectively.
- Also built and managed Mysql Database and it's integration with the front end and also with MongoDB using both Sql and NOsql Advantages more effectively obviously had several Microservices for this too.

### AADS

Backend Dev INTERN

Remote

March 2023 - September 2023

- Worked on the development of the Mongodb Server and and realm functions.
- Co-ordinated with front-end to create various application with MERN tech stack.

## Projects

### Digi-Cap

A Digital Capsule for precious memories

React.js Node.js, Firebase

- Create a Sign up and login with react and Firebase using google authentication method.
- It stores a Image in a capsule (in Firebase) Which will be unlocked at the date user chooses giving them a surprise via email.
- This was created entirely using chatgpt from the idea to developing it and steps to deploying on Vercel.

## Technical Skills

### Strongest Areas

AI tools & Prompt Engg.

### Programming Languages

Python, Javascript, Java.

### Libraries/Frameworks

React.js, Express.js, Git, Node.js, HTML5, CSS3.

### Database

MongoDB, Firebase, MySQL.

### Platforms

Git Hub,AWS, Vercel.

## Education

### S J (govt) Polytechnic

Diploma in COMPUTER SCIENCE

Banglore,India

June. 2020- May. 2023

## Hobbies

Chess

VideoGames

Reading Books

Listening to music

Exploring AI tools/trendz

Cricket/Football
