## Projects

### Digi-Cap

React.js Node.js, Firebase

A Digital Capsule for precious memories

- Create a Sign up and login with react and Firebase using google authentication method.
- It stores a Image in a capsule (in Firebase) Which will be unlocked at the date user chooses giving them a surprise via email.
- This was created entirely using chatgpt from the idea to developing it and steps to deploying on Vercel.

## Technical Skills

### Strongest Areas

AI Tools & Prompt Engineering, Microservices Architecture, API Development.

### Programming Languages

Python, Javascript, React.js,

### Libraries/Frameworks

Node.js, Express.js, HTML5, CSS3.

### Database

MongoDB, Firebase, MySQL.

### Tools & Platforms

GitHub, AWS, Vercel, Postman, Linux, Canva, ChatGPT,FlutterFlow, CodeSandbox, Glitch,VS code  
WordPress..

## Education

### Manipal University (Jaipur)

Bachelor of Computer Applications

Bangalore,India

May. 2024 - Current...

### S J (govt) Polytechnic

Diploma in COMPUTER SCIENCE

Bangalore,India

June. 2020- May. 2023

## Hobbies

Chess

VideoGames

Reading Books

Listening to music

Exploring Ai tools/trendz

Cricket/Football
